## What's New

Canada Address Fabric data is now updated to June 2019 Geocoding Currency. Due to a change in our sourcing process, records counts are reduced by ~656K records. Please see [Product Metrics](#) for more details. Please also note that there is ongoing work to persist the pbKey™ and attain one record for each addressable location. As a result, expect total address counts to go down with each release until we reach baseline stabilization.

## Known Issues

The following known issues exist in the product and are under investigation:

- As we stabilize the persistence of pbKey™, we expect the total address counts for Canada to be lower than in the previous version.
- The following features are not currently supported for Canada:
  - **PBAB - 430:** Unique and Persistent pbKey™
  - **PBAB - 431:** Secondary Address Information (ex. Units, Apts, and Suites)
  - **PBAB - 432:** Location Types
  - **PBAB - 433:** Property Type Information
  - **PBAB - 434:** Parent Child Relationships
- **PBAB - 332:** There are approximately 38,000 duplicate pbKey™ in the data.
- **PBAB - 346 (Different pbKey™ assigned to the same address):** There are very few records in the data where different pbkeys are assigned to the same address. Please see example below.

Fields	Record 1 Value	Record 2 Value
<b>PBKEY</b>	P0001A6VYFN5	P0001A6VYFMZ
<b>ADD_NUMBER</b>	73	73
<b>STREETNAME</b>	RTE 108	RTE 108
<b>UNIT_DES</b>		
<b>UNIT_NUM</b>		

Fields	Record 1 Value	Record 2 Value
