GroundView®: Consumer Expenditure Potential

Consumer Expenditure Potential (CEP) data is partitioned following the item hierarchical schema of the Current Employment Statistics (CES) - Bureau of Labor Statistics (BLS). For each CES survey, Pitney Bowes provides current year (designated in file name as cy) estimates and five year (denoted as 5y in zip file names) forecasts for all expenditures items provided by CES so long as the data is not missing or too small to yield valuable insight.

Consumer Expenditure Potential (CEP) data is provided into 4 bundles each for current year (cy) and five year forecasts (5y) expenditure:
