Product Overview

This document contains information about the following two products from the **StreetPro® family**:

StreetPro Display (1:10,000) : A large scale digital map base containing a complete street network and comprehensive geographical points of interest. The street network is “chained” and simplified to provide faster rendering and simplified labelling. The street network is also topologically correct with the street segments terminating at intersections. The street network is split by road classification layers to enhance map display. Streetpro Display is ideal for map and tile rendering where a complete, detailed Street map is required. StreetPro Display does not contain address ranges.

StreetPro Classic (1:10,000) : A large scale digital map base containing a complete street network and comprehensive geographical points of interest. The street network is “chained” and simplified to provide faster rendering and simplified labelling. The street network is also topologically correct with the street segments terminating at intersections. Street Address ranges are included in StreetPro Classic. StreetPro Classic is only available where Address Ranges are available.

For more information about these products, please refer to the Product Guides available [here](#).

Countries refreshed in this release

Following is the list of countries refreshed in this release.

- Austria
- Belgium
- Bulgaria
- Croatia
- Czech Republic
- Denmark
- Estonia
- Finland
- France
- Germany
- Hungary
- Italy
- Lithuania
- Luxembourg
- Macau
- Malaysia

- Malta

- Philippines
- Poland
- Republic Of Ireland
- Slovakia
- Slovenia
- Spain
- Sweden
- Taiwan
- Turkey
- United Kingdom

2 - What's New

In this section

What's new in this version

7

What's new in this version

Following are the changes implemented in this release.

Austria

- As part of an ongoing real-world administrative reform in Austria, 4 Administrative Areas were merged into 2 new ones: Bruck-Waasen and Peuerbach were merged into Peuerbach, Vorderweißenbach and Schöneegg were merged into Vorderweißenbach.
- Land use feature Park Or Garden (Type City/Park) is reviewed and updated for Linz. Similarly Airport Ground, Airport Runway and Terminal Building are reviewed and updated for 4 airports in Austria.
- 11510 km of road geometry in 2094 municipalities were updated.
- More than 1000km of new roads added in this product.

Belgium

- 50 Administrative Areas of Admin 3 have been updated.
- Landuse features Airport Ground, Airport Runway and Terminal Building are reviewed and added/updated for 3 airports in Belgium.

Bulgaria

- The geometrical accuracy of around 400 km of existing roads across the country has been improved. Around 100 km of roads have received updated Street Names.
- The extent of 91 existing Built Up Areas was corrected; additionally, 846 new Built Up Areas were added to our data.

Croatia

- The geometrical accuracy of around 700 km of existing roads across the country has been improved.
- 73 new postal districts, and in removing 93 relic ones for 2018.09.0 release.
- Now covering 65 % of Croatian population with House Number information.

Czech Republic

- In the framework of the Land Use improvement project, around 150 City Parks across the country have been added or realigned.

Denmark

- Landuse features Airport Ground, Airport Runway and Terminal Building are reviewed and updated

for 9 airports.

- Around 16000 km of (mostly back and forest) roads have been added across the country.

Estonia

- Recently, an Administrative Reform Act was implemented in Estonia, causing a complete reform of the Estonian administrative structure. To reflect this in our data few admin areas have been renamed, split and merged.

Finland

- Landuse features Airport Ground, Airport Runway and Terminal Building are reviewed and updated for 19 airports.
- Around 90000 km of (mostly back and forest) roads have been added across the country.

France

- As part of regular maintenance of our addressing map content, House Number Ranges were updated in France, based on fresh Address Point data. In total, 10300 kilometers of road geometry received new and/or updated House Number information.
- Near 10000 km of new geometry added in targeted locations. About 3400 conflicts are solved between Water Areas and Building Footprints by realigning the conflicting Water Area.
- Roads that will be part of 2018 "Tour de France" have been checked and realigned.
- In the framework of the Land Use improvement project, around 480 City Parks have been added or realigned in Bordeaux, Dijon, Le Havre, Reims, Rennes, Strasbourg, Toulouse, Montpellier, Brest and across the country.

Germany

- Merged 9 municipalities into 7
- In total, 2900 kilometers of road geometry received new or updated House Number information. Around 8000 km of (mostly back and forest) roads have been added in Thuringen.
- A nation-wide update of our Built-Up Area data has been performed: 165 Built-Up Areas have been added, and 319 existing ones have been updated.
- Around 250 City Parks across the country have been added or realigned.

Hungary

- Around 4700 km of road geometry has received new or updated House Number information.
- Landuse features Airport Ground, Airport Runway and Terminal Building are reviewed and added/updated for 5 airports and Park Or Garden (Type City Park) is reviewed and updated for 17 parks.

- Margitsziget, or Margaret Island, an island in the river Danube in the Hungarian capital Budapest, is now represented as an Administrative Area 3.

Italy

- Real-world administrative structure changes are frequently happening in Italy. We are trying to stay on top of these and integrate new information in our data as soon as it becomes available.
- Fiumicello and Villa Vicentina were merged into Fiumicello Villa Vicentina. Ligosullo and Treppo Camico were merged into Treppo Ligosullo.
- In the Landuse improvement project the City Parks are reviewed in Bologna, Brescia, Genova and Roma.
- Around 14000 km of (mostly back and forest) roads have been added across the country.
- Around 1800 km of roads have received updated Street Names.

Lithuania

- To reflect real-world administrative changes in Lithuania in our map data, we have updated around 1230 Built-Up Areas, 14500 City Centers, 2350 Index Areas, 30 Administrative Areas Order 8, and 170 Administrative Areas Order 9. Also updated close to 14600 Localities.

Luxembourg

- During an administrative reform in Luxembourg, districts were dissolved. To reflect these real-world changes in our data, we removed the administrative order representing these districts from our data. Affected districts are: Diekirch, Luxembourg, and Grevenmacher.
- Land use feature Park Or Garden (Type City Park) is reviewed and added/updated for Luxembourg.
- In total, more than 500 kilometers of road geometry received new and/or updated.

Malaysia

- Extend of 5 Built-up Areas were updated in the Administrative 1 areas of Terengganu, Selangor, Pahang and Perak.
- Administrative areas have been updated to reflect recent real-world changes. Boundaries of 160 administrative areas 3 have been updated.
- In the framework of a Land Use improvement project, around 25 City Parks have been added or realigned.

Netherlands

- Land use feature Park Or Garden (Type City Park) is reviewed and added/updated for Amsterdam. Land use features Airport Ground, Airport Runway and Terminal Building are reviewed and updated for 2 airports in the Netherlands.
- Around 3000 km of roads across the country have been updated.

Norway

- We are reflecting real-world merges of Administrative Areas Order 8 in our data: Leksvik was integrated in Indre Fosen, Tjøme was merged into Nøtterøy, Lardal became part of Larvik, and Hof was merged into Holmestrand.
- Landuse features Airport Ground, Airport Runway and Terminal Building are reviewed and added/updated for 46 airports.
- The coastline realignment project has continued; around 1700 km of coastline has been realigned.

Philippines

- Extended 74 Built-up areas in the Admin Areas of Central Luzon, Soccsksargen, Davao Region, Central Visayas, Cagayan Valley, Ilocos Region, Cordillera Admin Region.
- Land use feature Park Or Garden (Type City Park) is reviewed and updated.
- Around 55000 km of roads have been updated.

Poland

- Landuse features Airport Ground, Airport Runway and Terminal Building are reviewed and added/updated for 8 airports.
- Around 1500 km of roads across the country have been updated and around 200 km of roads have received updated Street Names.

Republic Of Ireland

- A part of the country border between the Republic of Ireland and Northern Ireland was presented incorrectly in our data. The respective part of this country border has been realigned and now reflects the real-world situation.
- As a part of this effort, around 6700 new postal codes have been added to our map data, and around 6200 old ones have been removed.

Slovakia

- Landuse features Airport Ground, Airport Runway and Terminal Building are reviewed and added/updated for 5 airports.
- Land use feature Park Or Garden (Type City Park) is reviewed and updated.

Slovenia

- We have increased the Street Network fully attributed coverage to 91% to enhance turn by turn navigation in various municipalities of Slovenia.

- House Number Ranges were updated, based on fresh Address Point data. In total, 1193 km of road geometry received an update of House Number data.
- Landuse features Airport Ground, Airport Runway and Terminal Building are reviewed and updated for 3 airports.
- Land use feature Park Or Garden (Type "City Park") is reviewed and updated for 20 parks.

Spain

- We are working on the introduction of so-called Parroquias (parishes) in the autonomous community of Galicia. These will be captured as Administrative Areas 4. In total, 34 Parroquias have been added for this release.
- Around 136000 km of (mostly back and forest) roads have been added across the country. Around 1200 km of roads across the country have been updated. Around 1100 km of roads have received updated Street Names - partially because of the removal of Street Names in Madrid linked to the Francisco Franco regime.
- In the framework of the Land Use improvement project, around 40 City Parks across the country have been added or realigned.

Sweden

- Landuse features Airport Ground, Airport Runway and Terminal Building are reviewed and updated for 28 airports.
- Around 1000 km of (mostly back and forest) roads have been added across the country.
- About 400 conflicts are solved between Water Areas and Building Footprints by realigning the conflicting Water Area.

Turkey

- In total, 82000km of road geometry has received new or updated.
- As part of an ongoing correction of our administrative structure in Turkey, 716 City Centers have been updated in our map data.
- In the Landuse improvement project the City Parks are reviewed in Istanbul and Izmir. Landuse features Airport Ground, Airport Runway and Terminal Building are reviewed and added/updated for 32 airports.

United Kingdom

- More than 30000 km of new roads added in targeted location from Governmental sources. Around 850 km of roads across the country have been updated.
- As part of this, 3145 new postal codes were added for 2018.09.0 release, as well as 3954 relic ones removed that ceased to exist according to official sources.

- About 3400 conflicts are solved between Water Areas and Building Footprints by realigning the conflicting Water Area.
- As part of ongoing maintenance activities, 100 Administrative Areas Order 8, 240 City Centers and 214 Index Areas have been updated.

Introduction

This chapter provides the feature counts and street length information for all the countries covered in this release.

Note: In the Feature Counts table, Administrative Level 0 [a0] contains the total landmass of the country and the associated sea (if applicable). However, for better map rendering, this layer is divided into a grid of multiple objects. Accordingly, the counts for the Administrative Level 0 [a0], in the following tables, represents the total count of all such grid objects in that layer.

Austria

Following are the stats for Austria.

Table 1: Feature Counts Comparison

Table	Description	Local Names	Counts 2017.09.0	Counts 2018.09.0
