Release Notes

The World Premium Points of Interest - Consumer Edition (WPPOI-CSMR) contains the rich set of consumer focused Points of Interest available in the Pitney Bowes' World Premium Points of Interest dataset. Pitney Bowes is committed to ongoing enhancements to this industry leading database to serve our customers' needs. Our roadmap is designed to continually maintain and improve the product so our customers can derive the highest value for their consumer services. Additional information on all Pitney Bowes Software products is located on our support site. Complete documentation is located at [our support site](#).

Product Overview

The World Premium Points of Interest – Consumer Edition (WPPOI - CSMR) dataset provides information on the location of, and details relating to, a diverse set of consumer focused businesses, leisure hot spots and geographic features. The locational accuracy of this data has been further enhanced using Pitney Bowes Premium Spectrum Enterprise Geocoding solution to provide the most accurate location available for each Point of Interest.

Some of the feature of the WPPOI - CSMR product are:

- Focused selection of POIs that concentrate on businesses, landmarks, and services relevant to consumers.
- Drawn from the largest, globally geo-referenced POI dataset.
- The POIs are geocoded using Pitney Bowes comprehensive Global Geocoding capabilities.
- The POIs are classified using both the Pitney Bowes MiCode (providing a consumer-friendly classification across products) and the Standard Industrial Classification (SIC) culdoscopies note that both these classifications are cross-referenced. The individual POI in the dataset have hierarchical relationships between themselves and others in their ‘family’.
- The taxonomy ensures ease of use and global consistency.

The dataset enables users to make informed decisions around access to services, retail or recreational facilities, ideal for location based marketing and “find my nearest” searches.

Coverage

WPPOI-CSMR v5.14.0 contains POIs for 176 countries. Some countries are released together in a group. The following table provides details of each country group, including the ISO3 codes (three-character ISO country codes) for each country included.

COUNTRY BUNDLE	COUNTRY	ISO3
Albania	Albania	ALB
Algeria	Algeria	DZA
Angola	Angola	AGO

Pitney Bowes understands that Australia has a significant volume of businesses that are self-employed, single operator, SOHO style businesses which are difficult to both monitor and ensure they are in business. Pitney Bowes is actively reviewing these businesses and will include those that we can positively identify as being “in business”. However, we believe focusing on businesses with employees that will provide our clients the most significant points of interest for their use cases, applications and business success.

Australia World Premium Points of interests is built to ensure we include businesses that employ 1 or more people, this ensures that Pitney Bowes provides a product that covers a business universe which contributes 85% of Australia's economic output.

Change Log

- A new lookup table of **Local Activity Code Description** has been added in the Product Guide against the "ALT_INDUSTRY_CODE" field in the schema. This table defines the list of various NACE codes (Nomenclature of Economic Activities) and their description for respective countries. For more details refer to the [World Premium Points of Interest](#) product guide.
- De-Duplication exercise has been performed on all countries hence, you may find light differences in the counts.
- Quality enhancements in 600 brands for the USA, in 120 brands for GBR, more than 100 brands in Canada and in 65 brands for Australia. Click [here](#) for more details.
- Removed the 'CPF' information (It is the Brazilian individual taxpayer registry identification number) from POI names in Brazil, wherever it exists.
- Few brands have been updated with the new names. Click [here](#) for more details.
- False positives brandnames have been untagged.
- Latitude and Longitude values may occasionally change slightly due to geocoding enhancements.
- Applied few changes in the address components for few records and removed few junk characters from the data like, (\, <, >, %, ^, ||).

World Premium Points Of Interest Consumer 5.14.0 Release Notes

- Improved the Brand Name standardization in the data and it has been standardized for respective countries. A new country Hungary has been added to the list of countries for which the brand name standardization has been done.

Country	Brandname Counts
Argentina	25
Australia	327
Bahrain	11
Canada	324
Czech Republic	14
Germany	19
Great Britain	629
Greece	13
Hungary	1
Kuwait	16
Mexico	42

Oman	5
Poland	10
Qatar	22
Romania	10
Russia	19
Saudi Arabia	19
Slovakia	8
Spain	22
Switzerland	21
United Arab Emirates	26
United States Of America	1970

For detail view click [here](#).

Known Issues

There are some known issues with the source data. We will strive to address these issues in subsequent releases in a timely fashion. Please contact Technical Support with any questions you may have.

This section covers known issues and behaviors that require further explanation:

- The ALT_INDUSTRY_CODE field lookup value is available for only 21 countries.
- Non-Standardized attributes for few records in the countries such as, United Arab Emirates (ARE), Argentina (ARG), Bahrain (BHR), Canada (CAN), Switzerland (CHE), Czech Republic (CZE), Germany (DEU), Spain (ESP), Greece (GRC), Kuwait (KWT), Netherland (NLD), Oman (OMN), Poland (POL), Qatar (QAT), Romania (ROU), Russia (RUS), Saudi Arab (SAU) and Slovakia (SVK).
- Non Standardized formattedAddress, mainAddressLine and addressLastLine for few records in Australia.
- Some invalid values exist in the Name, areaName1, areaName2 and areaName, TradeName and Postcode column including instances where the Postcode column has values as 'zeroes'.
- Some diacritics are missing from the Name, TradeName, formattedAddress, mainAddressLine, addressLastLine, areaName1 and areaName3 columns.
- Some duplicates may be encountered in the dataset.
- There are a few instances of text truncation exist for the Name, TradeName, Business_Line, areaName3, formattedAddress, mainAddressLine, Http, Email, Postcode and areaName2 columns.
- There are a few instances where the Employee_Here (number of employees at the current location) count mismatches the Employee_count (total number of employees).
- There are a few instances that have inconsistent Status_Code and Subsidiary_Indicator mapping.
- The Email, Http, Ticker_symbol, and Exchange_Name columns are not populated for many countries.
- The SIC8 (code) descriptions are undergoing updates. As a result, some values may not have any or updated description(s) and may have been removed.
- The administrative layer names of countries are not standardized. As a result, some areaname4 values may be blank. There are a few instances where different variations of the same name are encountered in the areaName1 column.
- There are few mismatches in areaName1 and Stabb field as areaName1 is not necessarily the highest hierarchical administrative region, whereas, Stabb field is the highest available administrative region.

World Premium Points Of Interest Consumer 5.14.0 Release Notes

- Mainaddressline and formattedaddress are not standardized in few records.
- There are a few instances where House number / Street Name is appearing twice in mainaddressline.
- There are a few instances where the areaname3 is populated with the name of a different admin level.
- Two ISO3 (BLM, MAF) are included in both country bundles, France(FRA) and Minor Americas(MAM).
- Encounter some corrupted characters in following 15 countries; Argentina, Austria, Belgium, Canada, Denmark, Finland, France, Germany, Netherlands, Norway, Poland, Portugal, Spain, Sweden, and Switzerland. This issue would be fixed by next release.
- Brandname standardisation is work in progress, so this may encounter some minor discrepancies.
